How It Works

Capable T-Mobile phones can keep you connected from locations around the world. Here's how:

- Make sure your device supports the frequencies used in your destinations.
- Once you get to your destination you will need to select the carrier once you have powered on your device. Follow these steps:
 1. From the Home screen, select Options *(on some devices, select **Settings** then **Options**)*
 2. From the Options list, select Network *(on some devices, select **Mobile Network**)*
 3. Scroll to Network Selection Mode and select to Manual.
 4. Select Scan for Available Networks.
 5. Select the prepaid carrier from the table below

 **monthly4G**

Limited-time offer; subject to change. Rates are subject to change without notice. Taxes and fees additional. Not all features or plans available on all devices while roaming. Airtime charges apply. International roaming rates apply to calls or messages using your T-Mobile device while located in a country outside of the United States. Some services that are free of charge when used domestically may incur charges when roaming internationally. International roaming is not available for Sidekick® users on Prepaid plans. Some devices may transmit and receive data without any user action, which may result in unexpected charges when you travel internationally. See Sales Associate, Prepaid brochure and **Terms and Conditions (including arbitration provision)** at www.T-Mobile.com for additional details.
